If the applicant is not the property owner, the applicant will be required to provide a copy of the written consent or authorization from the owner for them to request power release.

APPLICANT ACKNOWLEDGEMENT:

Request is hereby made for an electrical inspection at the location listed above. The purpose of the inspection is to determine if the existing electrical service equipment can be safely connected to the electric utility provider. This application is not a permit and is not authorization to perform any work on the electric service equipment by any person. The Electrical Inspector will perform a visual inspection of the condition of the electric service equipment and wiring, which includes but is not limited to risers, conduits, raceways, clamps, braces, meter cans, enclosures, panelboards, equipment ground rod(s), ground rod connections, conductors, lugs, and meter sockets. If the building is not safe/suitable for its intended use, then the electrical system will not be energized.

This inspection does not guarantee the condition of the inspected building or equipment; nor does it constitute a warranty of any electrical equipment or component and the applicant hereby agrees to hold Broward County Building Code Division and its employees harmless for any claim of liability or damages associated with the performance of the safety inspection. If discrepancies are found that require correction, an electrical permit will be required for said work.
