

FLORIDA BUSINESS DAMAGE ASSESSMENT SURVEY

www.FloridaDisaster.biz

WAS YOUR BUSINESS DAMAGED BY THE FLASH FLOODING IN APRIL 2023?

Damages may include the loss of property, equipment, inventory or working capital, as well as the inability to pay operational expenses, such as rent, utilities or fixed debt payments.

Under the direction of Governor DeSantis, the Florida Department of Economic Opportunity (DEO) and State Emergency Response Team (SERT) have activated the Business Damage Assessment Survey in response to the flash flooding in Southeast Florida. The survey will gather information from businesses impacted by the severe weather and share the results with various local, state and federal partners to implement appropriate disaster relief programs.
