# HCoC Rating & Ranking

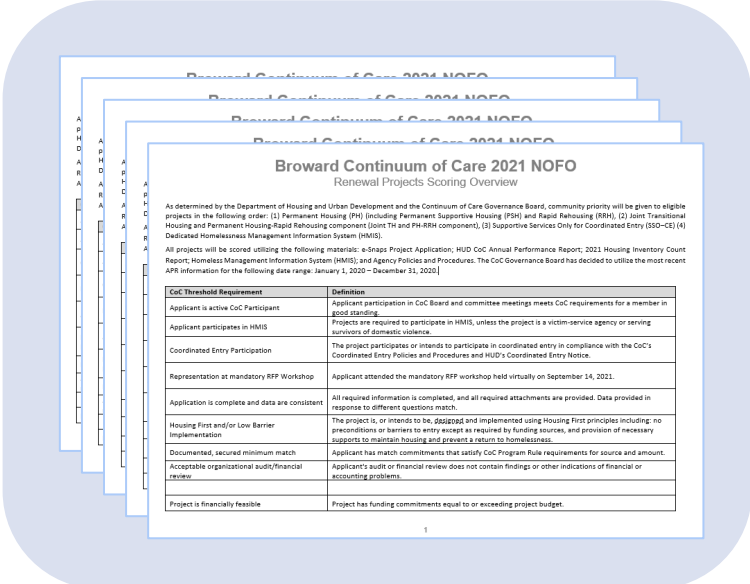

*How provider applications are  
scored and ranked*

# The Rating & Ranking Tool

The Collaborative Applicant developed the Project Scoring and Ranking Tool for Renewal and New Projects. This was completed by an Ad Hoc Committee.

The tool has been reviewed and approved by the Performance, Outcomes, Needs, and Gaps (PONG) Committee and The HCoC Advisory Board.

# Components of the Tool

---

13

## Threshold Review

The Rating & Ranking Tool includes a “threshold review” of all projects to determine whether they meet the critical project eligibility and project quality requirements on a pass/fail standard.

---

## Rating Factors

Sub-recipients that pass the threshold review will then be reviewed and scored based on whether they meet key rating factors pertaining to project finances, performance, data quality, and commitment to HCoC principles.

---

# Priority Listing

---

14

All project applications that the HCoC approves will be listed on the HCoC Priority Listing in rank order. Higher-ranked projects will be assigned to Tier 1, and lower-ranked projects will be assigned to Tier 2

## Tier 1

- » Equal to 100% of the CoC's (ARD)
  - » Traditionally protected from defunding
- 

## Tier 2

- » Compete nationally for funding
  - » At risk for being defunded
-
